
FREE TEMPLATE

The Proposal Template That Closes Deals

Copy, fill in 6 fields, send a professional proposal today —
no blank page, no formatting hours.

Most freelancers lose deals not because of their skill — but because their proposal looks rushed, prices inconsistently, or arrives two days after the client already moved on. This template gives you the exact structure used in proposals that close at premium rates: a confident overview, a specific scope, line-itemized pricing, a phased timeline, and a clear close. Fill in your details, send it today. The next time you quote a project you will not start from a blank page again.

What's inside: 6-section fill-in template · 2 fully completed examples · Landing page copy · Delivery email template

How to use this template

This template has 6 sections. Each has instructions in italic text and a completed example underneath. Read the instruction once, delete it, replace it with your own details. The whole process takes under 10 minutes.

Two fully completed example proposals are at the end of this document — one for a website redesign, one for a brand identity project. Use them as a reference while you fill in your own.

THE TEMPLATE

[YOUR NAME OR STUDIO NAME]

Proposal for [CLIENT NAME]

Prepared [DATE] · [PROJECT TYPE]

SECTION 1

Project Overview

2–3 sentences. Start with the client's goal, not your process. Show you understood their situation. Never open with "I" or "We will."

Example

Your current website was built in 2019 and no longer reflects the quality of work your studio produces. This redesign will create a modern, conversion-focused presence that positions you above local competitors and turns visitors into inquiries. The goal is a website that works as hard as you do — building trust on the first visit and driving qualified leads every month.

SECTION 2

Scope of Work

Bullet list of specific deliverables. Be concrete — not "homepage design" but exactly what that includes. Each bullet should be something you can check off as done. Group into 2–3 categories if the project has multiple workstreams.

Example

Website Design & Development

- Custom homepage — hero, services, social proof, CTA sections
- 4 inner pages — About, Services, Portfolio, Contact
- Mobile-responsive across all screen sizes
- Contact form with email notification
- Speed and performance optimization

SEO Foundation

- Meta titles and descriptions for all pages
 - Heading structure and alt text
 - Google Search Console setup and initial indexing
-

SECTION 3

Investment

Pick a specific number — not a range. A range signals uncertainty. Price in the upper half of your comfort zone. Use line items so the client sees what they are paying for. Label it "Investment", not "Cost."

Example

Item	Investment
Website design (6 pages)	\$1,400
Development & responsive build	\$600
SEO foundation setup	\$200
2 rounds of revisions	Included
Total Investment	\$2,200

50% deposit to begin. 50% on project completion.

SECTION 4

Timeline

Break the project into 3–4 named phases. Give each a specific duration, not vague language like "a few days." Include a start date and estimated completion date.

Example

Phase	What happens	Duration
Discovery & Wireframes	Research, sitemap, wireframe layout	Week 1
Design	Homepage and inner page designs, client review	Week 2
Development	Build, responsive implementation, forms	Week 3
QA & Launch	Testing, fixes, go-live	Week 4

Estimated start: Upon deposit receipt

Estimated completion: 4 weeks from start

SECTION 5

What's Included / What's Not Included

The "What's Included" list reminds the client what they're getting. The "What's Not Included" list protects you from scope creep — the number one cause of underpaid projects. State these matter-of-factly, not defensively.

What's Included

-
- All items listed in the Scope of Work above
 - 2 rounds of revisions per page
 - 30 days of post-launch support for bug fixes
 - Final files and assets delivered on completion

What's Not Included

- Copywriting or content creation (client provides all text and images)
 - Logo design or brand identity work
 - Ongoing maintenance after the 30-day support window
 - Third-party tool costs (hosting, domain, plugins)
-

SECTION 6

Next Steps

Give the client exactly 3 steps to move forward. Be specific. End with one confident closing sentence — not a question, not "I look forward to hearing from you."

Example

1. Reply to confirm you'd like to move forward
2. Invoice for the 50% deposit will be sent within 24 hours
3. Kick-off call scheduled for [DATE] to align on goals and timeline

Projects at this scope typically book 1–2 weeks out — securing your start date now ensures we hit your target launch.

Website Redesign — Restaurant

NOVA Studio

Proposal for Ember & Oak Restaurant

Prepared 21 May 2026 · Website Redesign

Project Overview

Ember & Oak's current website makes it difficult for new customers to find the menu, check hours, or book a table on mobile — resulting in lost reservations and a brand experience that doesn't match the quality of the food. This redesign will create a modern, visually appetising site that loads fast on mobile, drives online bookings, and reflects the premium dining experience you deliver in person. The goal is a website that fills your tables, not just describes them.

Scope of Work

Design & Development

- Custom homepage — hero image, story section, featured dishes, booking CTA
- Menu page with filterable categories (starters, mains, desserts, drinks)
- Reservations page with OpenTable or Resy embed
- About page with team and story section
- Contact page with map, hours, and inquiry form
- Mobile-first responsive build across all pages

Performance

- Image compression and lazy loading for fast mobile load
- Google Maps embed
- Basic on-page SEO setup

Investment

Item	Investment
Design (5 pages)	\$1,200
Development & responsive build	\$700
Booking integration	\$200
Performance & SEO setup	\$150
Total Investment	\$2,250

50% deposit to begin. 50% on launch day.

Timeline

Phase	What happens	Duration
Discovery	Brand review, sitemap, wireframes	Week 1
Design	Full page designs, client review	Week 2
Development	Build, integrations, mobile testing	Week 3
QA & Launch	Final review, fixes, go-live	Week 4

Start: Upon deposit **Completion:** 4 weeks

What's Included

- All 5 pages listed above, fully designed and developed
- Mobile-responsive across iPhone, Android, and tablet
- 2 revision rounds per page
- 30 days post-launch support
- All source files on handover

What's Not Included

- Food photography (client provides high-resolution images)
- Menu copywriting
- Ongoing monthly maintenance
- Hosting and domain costs

Next Steps

1. Reply to confirm you'd like to proceed
2. Deposit invoice sent within 24 hours of confirmation
3. Kick-off call on [DATE] to review brand assets and finalize sitemap

Restaurants with seasonal menus benefit most from launching before peak season — locking in your start date this week keeps that window open.

Brand Identity — Fitness Coach

NOVA Studio

Proposal for Jordan Blake Fitness

Prepared 21 May 2026 · Brand Identity

Project Overview

Jordan Blake Fitness has outgrown its current DIY logo and inconsistent visual identity — clients are booking despite the brand, not because of it. This brand identity project will create a cohesive, premium visual system that positions Jordan as a high-end performance coach, not a commodity PT. The result will be a brand that attracts higher-paying clients and builds instant credibility across Instagram, a website, and client-facing materials.

Scope of Work

Brand Identity

- Primary logo (horizontal + stacked versions)
- Secondary mark / icon for profile pictures and watermarks
- Color palette (primary, secondary, neutral) with usage guidelines
- Typography system (heading font + body font + rules)
- Brand voice guidelines (3 adjectives, tone examples)

Deliverables

- Full brand guidelines PDF (12–16 pages)
- All logo files in PNG, SVG, and PDF formats (light and dark versions)
- Social media profile picture and cover photo templates (Canva-editable)
- Business card design (print-ready file)

Investment

Item	Investment
Logo design (3 concepts, 2 revisions)	\$900
Full brand identity system	\$600
Brand guidelines document	\$300
Social media templates (2)	\$150
Business card design	\$100
Total Investment	\$2,050

50% deposit to begin. 50% on final file delivery.

Timeline

Phase	What happens	Duration
Discovery	Brand questionnaire, competitor audit, moodboard	Days 1–3
Concept	3 logo directions presented for feedback	Days 4–7
Refinement	Selected direction refined across full identity	Days 8–14
Delivery	Final files, guidelines, and templates packaged	Days 15–18

Start: Upon deposit **Completion:** 18 days

What's Included

- Everything listed in Scope of Work above
- 2 revision rounds on logo, 1 round on supporting assets
- Full-resolution files ready for print and digital use
- Canva-editable templates so you can update content yourself

What's Not Included

- Website design or development
- Photography or videography
- Social media management or content creation
- Merchandise or apparel design

Next Steps

1. Reply to confirm you'd like to move forward
2. Brand questionnaire sent same day — takes 15 minutes to complete
3. Deposit invoice issued, kick-off begins within 24 hours of payment

Strong brand identity before a launch or relaunch consistently increases conversion on coaching offers — the sooner the brand is locked in, the sooner it starts working.

DELIVERY EMAIL

Send this when someone downloads the template

Subject line: Your proposal template is inside (use it today)

Hey [First Name],

Here's your free proposal template — [LINK].

One thing to do in the next 24 hours: find a project you're currently quoting and fill in the 6 sections. Don't overthink it. A complete proposal sent today beats a perfect one sent Thursday.

The two completed examples at the end of the doc show you exactly how it should look when filled in.

Reply to this email if you have any questions — I read every one.

— [Your name]

A/B TEST SUGGESTION

Test the CTA button text: **"Get my free proposal template"** vs. **"Download the template"** — benefit-framed CTAs consistently outperform action-only CTAs but it is worth confirming with your specific audience.

Built with Proposalkit — generate proposals like these in under 3 minutes.
